NEW ALLIES IN CLOSE CONTACT FURTHER GERMAN EFFORT TO TURN WING IS BLOCKED

RAISER'S SEADOGS MAY COME OUT OF HIDING AND FIGHT

If This Measure Taken Will Have to Run Gauntlet of British Mines.

TEUTONS DRIVEN BACK MORE THAN 30 MILES

Stated Titanic Climax Effecting Whole Campaign Cannot Be Far Away.

London, Oct. 18.—(1.15 p.m.)—By reaching their tentacles out to the sea, the allied forces have established close contact with the British navy which is on the extreme left of the line and seems from the London view, for the moment to block effectively a further German effort to turn this wing. That the Germans may have grasped this is perhaps indicated in the otherwise unexplained appearance of four of their boat destroyers Saturday off the Dutch coast, southward bound. It is suggested that the object was for the destroyers to capture submarines which dispute the command of the sea on the Belgian coast.

Should the German navy undertake this venture it would be confronted with much the same preparation as has met the British fleet since the commencement of the war, and it would assume the same risks of colliding with mines heretofore fired by the British alone, because the British mine field stretches along the Belgian coast from Ostend southward.

If, as the allies claim, their left cannot now be turned, the only alternative left the Germans is to back away through a series of arduous confrontations with General Von Kluck, or General Von Arnim or whoever is in command of the German right, seems in no way loathe to make the attempt. That they have made a forward movement is not only the newspaper dispatches but from a confirmation of these dispatches in Sunday's official communication from Paris.

As to this, the British official bureau, in one of its rare communications, says that the allies in the northern area have driven the Germans back more than 30 miles. The precise locality of this advance and retreat is not indicated, but it can have been only at some point on this western wing, where the Germans are trying to resume their interrupted dash on Paris by way of the coast towns.

These, however, are only two points on the human barriers which are facing one another for hundreds of miles, continuing to push forward and backward without as yet being able to effect the Titanic climax which will bring to an end the immediate phase of the great campaign. Observers here think that this climax cannot be far off and that the fighting is reaching its final stage, though, though not in the sense intended, the words attributed to Emperor William, who, in addressing his troops assembled in France on October 3, is reported to have said:

"Before the leaves fall from the trees here we shall be back in the rear of the foe."

The probability that the Emperor never expressed this opinion does not detract from its value in the British construction.

BOMBARDMENT OF CATTARO HAS NOW BEGUN IN EARNEST

Stated Forty Warships Fired on Outer Ring of Forts Thursday Night.

Monte, Oct. 18.—Operations against the fortified area of Cattaro have now begun in earnest, and for the first time in the course of a rather protracted siege there is a real prospect of the Montenegrins success. Their lack of artillery is now remedied, guns having been dragged up the steep paths which alone give access to the town of Lovcen, and a vigorous bombardment has been by land and sea. According to a telegram from San Giovanni Di Medua, the allied fleets during the early days of the week did not fire a shot, but contented themselves with scouring the Adriatic in vessels carrying contraband. Yesterday they resumed the bombardment for a few hours, but serious operations were not begun till Thursday evening, when forty warships attacked the outer ring of forts. The forts replied vigorously, while the new guns of the allies, firing a hail of shells on the Austrian positions. The bombardment continued all night, apparently without result.

The number of warships mentioned as engaged is obviously much exaggerated, unless it includes torpedo boats, which could, of course, take no part in the bombardment of fortresses. On Wednesday a wireless message was received announcing that the Austrians (torpedo craft) were cruising along the Dalmatian coast, watching for an opportunity to attack a sailing ship which was estimated to be a sailing ship on the allied squadrons. Six French vessels were detached to ensure the safety of the allied fleet. The latter came up with the Austrians at full speed, and managed to evade the pursuers, except one torpedo boat, which, when cut off, retreated courageously with her feeble guns. None of her shots did damage to the French ships. She was pursued many times by heavy projectiles, and sank with all on board.

LONDON'S NIGHT-TYPE WATCHING FOR BOMB-THROWING ZEPPELINS

Searchlight station on arch at Hyde Park corner, London. The light sweeps the sky at night looking for any Zeppelin airship seeking to drop a bomb upon London.

Brother-in-Law of Crawford Took Safe From His Office Within Five Days of Murder

First Day of Wainwright Murder Trial Deepens Mystery—A. C. Armstrong, Deceased's Relative, Waivers in Answers When Cross-Examined by A. G. MacKay, K.C.—Dead Man Had Once Left Ottawa Suddenly, Going to Calgary, Thence to Wainwright—Victim's Visits to Home of Kemp, Railway Man, Had Been Talked of in Town.

Much interest was evinced Monday morning in the supreme criminal court before Justice Jive, when the Crawford murder case was begun. The courtroom was crowded to capacity, and the case promises to be a lengthy one, as there are in the neighborhood of 100 witnesses to be called. The prosecution is being carried on by E. E. Cogswell, and the defence by H. H. Robertson and A. G. MacKay.

The Crawford murder case has attracted attention over the entire province. The man accused of the crime is Thomas G. Crawford, manager of the Imperial Lumber Company, of Wainwright, where the murder took place. Crawford also was engaged in the lumber business to a small extent, and carried on a coal business, and transported insurance, loans and brokering. He was last seen alive on May 14, and about the middle of the following month his body was found in a well on Cook's farm, some five miles east of Wainwright. Crawford was a big man, weighing about 250 pounds, and the well in which his body was found was only about two feet square. The attention of farmers had been attracted to the well because it had recently been filled with manure and other refuse.

Cook, the accused, is a young man, about 23 years old, with clear complexion and rather good looking. He has a reputation as a very keen business man. He was arrested in his office by the mounted police when sufficient evidence had been secured. The arrival had been kept a secret, and the Crawford family had been in the country were detailed on the case, which, for over a month, provoked much mystery to police and public alike.

The jury was addressed by Mr. Cogswell before any of the witnesses were called. He related of the business carried on by Crawford. The firm was known as Crawford and Company, and was registered in the name of his wife. A brother-in-law and a non-lawyer, and Crawford assisted him in the business. Crawford had been seen at 11:30 on the night of May 14. A farmer by the name of Hill, a farmer, coming to town that night, had seen a democrat with two men in it driving through the bushes on the night of May 14. The premises at the farm on which the well were not occupied. The filling of the well had been reported. Sixteen feet down, some bones of cement were found, and the well beneath this was the body of Crawford, head downwards. On the 11th Crawford had received a telegram from Toronto and signed by R. S. Barker. Crawford had apparently left home with the intention of doing business in connection with the telegram. The telegram had been typewritten. Mr. Cogswell stated, on a machine which resembled one owned by Cook, and also stated that the writing resembled Cook's style. The wording of the telegram was as follows:

AUSTRIANS CLAIM RUSSIANS BEATEN

Several Attacks by Muscovites Said Repulsed South of Przemyel.

ADVANCE ON CARPATHIANS

Stated Czar Has Lost 40,000 Dead and Wounded During Attacks.

London, Oct. 18.—A despatch from Vienna, via Amsterdam to Reuters' Telegram company gives an official statement of the Austrian operations in Galicia, central Poland. Von Hofer, the deputy chief of the Austrian general staff on Sunday: "The attack in the battle on both banks of the starwax river south of Przemyel was continued yesterday, and our troops succeeded in getting close to the enemy. At several places our troops were advancing against a fortress. Last night several attacks of the Russians were repulsed with heavy losses. For our heavy artillery is now in action. The pursuit of the enemy north of Wyszyn, near the Carpathian mountain passes, have continued. In other parts our troops already have advanced over the Carpathians."

The Russian losses during attacks on Przemyel are estimated at 40,000 dead and wounded.

Writes Home from the Front. One of the first men to leave Edmonton for the front Dr. Ch. Valery, a well-known physician of the city, who was a French reservist. Writing to friends in Edmonton Dr. Valery states that on two occasions he had been sent on special missions to the battlefield in the capacity of doctor.

BELGIANS DRIVE BACK THE ENEMY TAKING ROULERS

ALBERTA CATTLE BRING HIGH PRICE IN TORONTO

From Toronto comes the information that on October 6 there were sold at the union stock yards of Toronto, by H. P. Kennedy and company, commission salesmen, to the Toronto Powles Canadian company, a carload of Alberta cattle for \$3.50 per cwt. in commenting on this, the Toronto papers state that they saw a fine sample of the kind of cattle that Alberta is capable of producing, and were said to be as fine a kind as seen on the market during the present year. While the price was not the highest for the season, it was the top price paid on that day.

The same report states that the firm H. P. Kennedy and company, sold Alberta butcher cattle at high as 8 1/2c, and light stockers from Alberta at 6 1/2c. With feeders as plentiful as it was, it is throughout the central portion of this province stocker cattle should not be going eastward.

Paris, Oct. 19.—(2.52 p.m.)—The French war office gave out an official announcement this afternoon as follows:

"In Belgium the heavy artillery of the enemy has cannonaded, but without result, the front from Neuport to Vladsoo, to the east of Dixmude."

"The forces of the allies and notably the Belgian army, have not only repulsed further attacks on the part of the Germans, but have advanced as far as Roulers."

"On our left wing between the river Lys and the canal of Labasse, we have advanced in the direction of Lille. There has been very stubborn fighting on the front from Labasse to Ablain St. Nazaire. We are advancing from house to house in these localities."

"To the north and to the south of Arras, our troops have been fighting without respite for more than ten days, and with a perseverance and a spirit which never for a moment has been relaxed."

"In the region of Chaumes we have repulsed a strong counter attack delivered by the enemy and have won some ground."

"On the center there is nothing to report."

"On our right wing in Alsace to the west of Colmar, our advance posts are on the line between the Bon Homme, Paris and Sultzern. More to the south we still occupy Thann."

GENERAL ADVANCE ON LILLE REPORT FRENCH BULLETIN

Allies' Struggle Stubbornly Fighting for Each Step at Labasse.

BATTLE WITHOUT RESPIRE FOR MORE THAN TEN DAYS

In Region of Chaumes Strong Counter Attack by Germans

Porte Declines Discharge German Crews Aboard Goeben and Breslau

Constantinople, Oct. 18.—(2.15 p.m.)—The Porte has declined to discharge the German crews of the cruiser Goeben and Breslau, which have been in Turkish waters since early in the hostilities and which are said to have been sold for German use. The Turkish government, which has previously given repeated assurances that these Germans would be repatriated.

"On our right wing in Alsace to the west of Colmar, our advance posts are on the line between the Bon Homme, Paris and Sultzern. More to the south we still occupy Thann."

Porte Declines Discharge German Crews Aboard Goeben and Breslau

Constantinople, Oct. 18.—(2.15 p.m.)—The Porte has declined to discharge the German crews of the cruiser Goeben and Breslau, which have been in Turkish waters since early in the hostilities and which are said to have been sold for German use. The Turkish government, which has previously given repeated assurances that these Germans would be repatriated.

RECRUITING STOPPED BY GOVERNMENT SANCTION IN BIG SCOTCH IRON CENTER

London, Oct. 18.—(4.45 p.m.)—It is being stopped in some of the Scottish iron and steel centers with the sanction of the government. The reason is that these iron and steel works are running night and day on government orders, and it is held undesirable to deplete the working force. Augmenting the locomotive engineers already sent to the continent, 1,000 road track workers are to be sent from England to repair damaged railroads in the western area of the war.

RIVER SAN FILLED WITH DEAD BODIES GERMAN SOLDIERS

Petrograd, Oct. 18.—(2.15 p.m.)—A newspaper correspondent at Lemberg, referring to the German losses in the attempt to cross the outer San river, telegraphs that this stream is filled with the bodies of German soldiers floating down to August, similar flotillas on the Visnau, where other German troops have met the same fate.

Several of the outer forts at Przemyel are reported to have been captured, but these are not considered important.

MONTREAL MAN IS FACING DEATH ON TREASON CHARGE

Israel Schaefer, Immigration Agent, Alleged Traitor to His Country.

INSTRUCTED AUSTRIANS DISGUISE AS BULGARIANS

He Then Furnished Them With Tickets and Let Them Return to Ranks.

Montreal, Oct. 18.—Fourteen charges of high treason were laid against Israel Schaefer, an immigration and travel agent in the police court this morning. The charge against him was that of assisting a public enemy by furnishing steam tickets and money to Austrian reservists to enable them to return to the ranks. He is charged with having instructed them to represent themselves as Bulgarians. The charges in this matter were identical with that upon which Schaefer was arrested on Saturday.

Schaefer, after arrest, was handed over to the civil authorities, and will be tried in the civil courts. In the meantime, he was freed for Thursday next. The only penalty under the law following conviction is death, which may, of course, be modified by crown clemency.

EXTRADITION CASE AGAINST MURDERER THAW TO BE HEARD

Washington, Oct. 18.—The supreme court today advised for hearing on the extradition of the Harry Campbell case which involves extradition of Thaw from New Hampshire to New York on charges of conspiracy to escape from Mattawan hospital where he was confined after the killing of Stanford White.

ENERGIC CHECKED AT EVERY POINT ALONG THE LINE

Reports Say That Ostend Now Clear of Germans—Many Insist This is Because Garrison There Was Liable to be Cornered by Allies—Belgian Army Again Heard From and is Defending Only Part of Their Country Not Occupied by Teutons—Battle of Poland Appears to be Going in Favor of Russians.

London, Oct. 19.—(12:30 a.m.)—From the point of view of the allied armies as far as could be learned from dispatches reaching London today, the situation in West Flanders and in France as far south as Lille, seemed on this, the 17th day of the war, perhaps more hopeful than at any time since the German advance against Paris was checked.

Though the news reaching England is meagre and to an extent delayed, as always, all the tidings seem to indicate that the German advance on Ostend on the French coast had been mainly compelled to give ground before the allies' wedge force which has been concentrating on Lille.

Several reports contend that the Germans have withdrawn from this town but this is not confirmed, nor is the report that they evacuated Ostend, nearly 20 miles to the northwest. It seems plain, however, that the menace here grew marked and that the German army operating along the coast of Flanders found itself in peril of being cut off from the main body. While opposition they met along the sea is only guess work for it has never been disclosed in Great Britain what forces the allies have or at what point they touch the coast.

All reports seem to agree that the city of Ostend is practically clear of Germans who apparently are reforming to the south with reinforcements and the guns used to batter the Belgian forts and they now prepare to hammer on toward Dunkirk and Calais. One report says that they are beyond Furnes less than 10 miles from Dunkirk.

Further south in France reinforcements from Brussels are said to have been brought up before Lille which the Germans are reported as bombarding in a desperate attempt to retake the place.

The Belgians themselves have been putting in some hard knocks. According to last night's Paris official communication they have held the Germans in an attempt to cross the river Yser, southwest of Dinmude, Belgium. This was the first head of the Belgian forces since the evacuation of Antwerp and now they are found appropriately and picturesquely in the little splash of their own country that the invaders have not taken. King Albert, unheard of for some time, has been said to have cheered the men in the field.

Some of the London papers describe the German evacuation of Ostend as a retirement to the east on the theory that the allies' progress to the south threatened to isolate the Ostend garrison, making retreat imperative. The dispatches are unanimous in the direction of the retirement, however, most of them describing it as a passage to the west and any attempt therefore to analyze it is but conjecture.

From various sources come reports, none of which are confirmed, that some sort of naval craft is being pressed into use by the allies in the canals of Flanders. It was added that heavy fighting was progressing south of Ostend which, if true, meant the presence of allied forces at a point farther north than heretofore suspected. This is contradicted by the report that the Germans are west of Furnes.

Though there was a sporadic recurrence of the anti-German rioting in parts of London early this morning, police protection in such places has been increased and no serious outbreaks were reported during the forenoon in the city but at Saffron-Walden in Essex an English lawyer's house was attacked and the windows smashed because it was said he had been harboring two Germans. In the continuation of the rioting at Deptford last night a German grain dealer's house and store were wrecked and then fired.

In the eastern war area the great battle of Poland appears to be progressing in favor of the Russians, who claim to have checked decisively the Germans in their attempt to cross the Vistula. The Russians in and around Warsaw are being temporarily protected from fresh German artillery shelling by reason of the impassable condition of the country through recent rain and the destruction of the only railroad from Lodz to Warsaw on which the Germans could transport their heavy guns.

Around Przemyśl the Austrians claimed to have killed and wounded three thousand Russians and also to have crossed the Carpathians but on the other hand the Russians repulsed an Austrian attempt to cross the river San. That the Austrians are meeting with vigorous opposition is admitted in the latest Vienna dispatches which says "That our troops are advancing against a fortress."

NOTICES OF PERTINENT QUESTIONS TO BE ASKED IN COMMONS ARE GIVEN

Suggestion is Made That More Than One Member of the Royal Family is Fighting for the Enemy—Alleged Canadian Horses Sold to Germany.

London, Oct. 19.—Notice has been given that the following questions, among others, will be asked on the resumption of parliament.

1. Whether the total number of military and naval officers employed in the press censors department cannot be replaced by civilian specialists, thus enabling the officers to place their experience at the disposal of the government.

2. How many months have elapsed since the committee on imperial defence held a meeting and whether in view of the rumors of a possible invasion, a meeting is planned.

3. What authority had the secretary of the board of trade for stating that Zeppelin dirigible balloons would attack London at the end of October, and whether he is aware that his statement caused an increase in insurance rates, adding greatly to the expenses of business men.

4. Whether the secretary for Scotland is aware that a Methil Harbinger (Scotland), on the Firth of Forth, is brilliantly lighted during the night, and that the local belief is that signal fire takes place with the enemy.

5. Whether more than one member of the royal family having pecuniary interests in the British treasury are serving in the ranks of the enemy, and what steps are proposed to be taken.

6. Whether the foreign secretary is

aware that a regular courier service is being maintained at the headquarters of the German army, and whether he will instruct the passport department to exercise greater stringency.

7. Whether the under secretary of war is aware that soldiers are being charged in the cantines in some cases 100 per cent, and what steps are taken to halt this robbery.

8. Whether the under secretary for war is aware that an offer of 25,000 horses was made to the war office and that the person making the offer was told to come with an address in Canada, and whether these horses subsequently were sold to Germany.

9. Whether the under secretary for war is aware that in a large depot near London the caisson department is supplying trains and that the Prussian commanders purposely dispose of corpses so that the Germans are better placed to obtain regulation ration tickets.

10. Whether it is true that many of the men sent to Antwerp had been only a few weeks in training.

11. Whether the under secretary for war is aware that the khaki for uniforms is of an inferior quality, and also that the coloring that is being used in many cases is inferior, whether the under secretary will order an inquiry into the price paid for articles acquired by the war office.

12. Whether any soldiers have died at Colchester as the result of vaccination.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very painful; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is safe for thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is plentiful for kidneys and causes no bad effects whatever.

Here you have a pleasant, effective, lithia-water drink, which quickly relieves bladder trouble.

STATED HUNGARY IN OPEN REVOLT AGAINST GERMANS

Soldiers Being Treated by Russians Like Troops of Vassal State.

AUSTRIANS AND GERMANS SCRAPPING AMONG SELVES

Charges That Kaiser's Men are Robbing Their Allies' Supply Trains.

Petrograd, Oct. 19.—Fighting continues along the front of Vistula and San rivers to the Carpathians, and the situation in general remains unchanged. The Germans have not anywhere yet succeeded in forcing the passage of the Vistula but persist in their attempts. Further south, on the Danube, the Austrians have suffered a reverse and have been beaten back. On the extreme south front the Italians have again lost heavily.

The Germans operating to the west of the Vistula have begun to feel seriously the long distances and the impracticable country which separates their fighting front from their nearest base. The autumn rains have been turning Poland behind them into a quagmire. Russian aviators who have thoroughly reconnoitered the rear of the German lines, report that the roads are lined with dead German motor vehicles. The Germans are already so short of transport that they are commencing to use the motor of boat still left in the region.

Presumably, also, they have found it necessary to strengthen their rear along the lines of communication for the peasantry over this enormous area of country are carrying on a guerrilla warfare with remorseless ferocity. They succeeded a couple of days ago in wrecking a German troop train half way between Cheshenshtol and Petrograd near Nocerodank, with great loss of life.

On the other hand, where the Germans also are in contact, but where the men are largely Austrians, matters seem to be rather worse. Austrian prisoners continue to be taken and they are literally famishing. There is considerable friction between the Germans and Austrians, the latter complaining that the Prussians lost their supply trains and that the Prussian commanders purposely dispose of corpses so that the Germans are better placed to obtain regulation ration tickets.

The effects of whatever the Russian cavalry may be doing in Hungary, of which we have very little information, are evidently being strongly felt. Already the Hungarians are reported to be hoarding on their way in army and there is a rebellion among the people. Everywhere are heard strong, virulent complaints against the Germans having taken command of the Hungarian troops which they are alleged to be using though they are troops of a vassal state. Public opinion in Hungary cannot any longer be expressed. It accuses the Prussians of having their allies merely as a convenience.

The above information, which comes from a high authority, entirely bears out the statement when the Russian aviators first described the position of the Carpathians into the plains of Hungary, that this cavalry had rather a political than a military point of view.

Will Meet Again

Saskatoon, Oct. 19.—University of Saskatchewan Saturday dedicated Saskatoon City for the championship of the northern division of Saskatchewan Rugby Association by a score of 24 to 5. The game ended in the third quarter when the city team left the field following a decision of the referee, which disallowed a touchdown by Wilson, a city player.

ATTACK ON HAWKE WAS BIG SURPRISE

Seamen Were Singing When Submarine Struck Cruiser, Says Survivor.

SANK IN FIVE MINUTES
Doomed War Vessel Was Well Equipped With Life Saving Apparatus.

Aberdeen, Scotland, Oct. 19.—The attack on the British cruiser Hawke, which was sunk Friday by a German submarine, came as a great surprise to those aboard the cruiser, according to the survivors who arrived here. Nothing was "seen" to indicate the presence of a submarine until after the explosion, when the periscope of the boat was detected moving away at some distance. The Hawke sank in about five minutes, and hundreds of men, some of them in cork jackets and others hanging to pieces of wreckage, were scattered about in the water.

"I was on the watch," said one of the stokers, "and we were enjoying ourselves. Someone was singing and the others had joined in the chorus when the Hawke struck. The ship vibrated violently and immediately began to cant over. When I reached deck the captain was calling 'It is everybody for himself.' I jumped overboard, and managed to keep afloat, although the water was bitterly cold, until picked up by the only boat that there was time to launch. For a time we rowed around picking up men, but the boat was soon overboarded, and beyond throwing lifeboats to the men in the water we could do nothing. A Norwegian steamer came up and picked up a few survivors. The large majority she was 'late'."

The man evidently was suffering severely and kept repeating, "all my pals are gone."

Another survivor said: "The torpedo must have struck the magazine for there was a terrific explosion and the ship rose as if she had gone on a rock. Everything was dust and soot and flames were flying everywhere. Boats and rafts were rendered useless, even if there had been time to launch them. The submarine hung around for some time, probably expecting that there might be a repetition of the Aboukir, Hogue and Cressy affair, but there was nothing of the kind possible. A great number of men must have been killed by the explosion."

Two members of the engine room staff of the Hawke said that the torpedo found its mark between the two funnels, close to one of the magazines. The explosion was terrible. The ship listed immediately. They had seen a vessel so well equipped with life saving apparatus, but the Hawke listed over, making it almost impossible to get the small boats out. A small cutter was launched and was used to rescue the survivors. One of the small steam launches and a raft prepared for such emergency floated off when the Hawke sank.

MONTREAL MAN IS CHARGED TREASON

First Time Since Reel Reelion There Has Been Similar Case.

SOLD AUSTRIAN TICKETS

Made Money at Cost of Country—Men Returning to Fight.

Montreal, Oct. 19.—Acting for the domain of Canada, Col. Peter Davidson, assisted by Captain Maurice Alexander, both barristers at Montreal, complained of Major William Davidson, assistant postmaster of the fourth division, Montreal, appeared before Judge Lett Saturday morning and had a warrant issued for the arrest of Israel Schaffer, of this city on a charge of treason.

This move by the dominion of Canada came after a long conference with the authorities, the matter being under discussion some days before civil action was deemed imperative. In the first time since the Reel rebellion that a charge of treason has been laid in the dominion.

The accused who is charged with selling tickets to Austrians with a view to their return to Europe, fight against the allies was taken from the detention hospital and placed in the hands of the detective department and will be arraigned in court on the treason charge this week.

GERMANS GETTING WORST OF BATTLE ALL ALONG LINE

Strenuous Efforts to Obtain Possession of Strong Forts Repulsed.

FRENCH MOUNTAINEERS ARE HARASSING ENEMY

Southern Alsace is Illuminated at Nights by Forest Fires

From the battle front, Oct. 18, via Paris 19, (1:20 p.m.)—What in previous wars would have been called great battles were fought today in the eastern wing of the fighting line stretching from the Belgian coast to Belgium. In this great battle of nations, however, these fights are regarded merely as incidents. The fighting always has been of the defensive nature in this district, owing to the strenuous efforts of the Germans to obtain possession of the strong fortresses of Verdun, Toul and Epinal in order to open a way from Metz into France.

Saint Die, on the Meurthe 22 miles north of Epinal, was the center of today's attacks, which resulted in a repulse for the Germans with heavy casualties. The border of both Alsace and Lorraine also felt the shock of battle, and in the Vosges, the famous French Alpine regiments were in contact with German forces. These mountaineers continually kept the Germans busy by utilizing their remarkable mountain guns and baffling their efforts to drive them out. Their greatest achievement in the recent operations was the cutting of railway communications between Colmar capital of upper Alsace, and Mulhouse, thereby increasing the difficulties of the Germans in sending their wounded to the rear and in bringing up supplies.

The Germans have been up to 10-inch mortars in this district supposedly for an intended eventual siege of Belfort. In view of this possibility, the French have renewed their attacks

from the south and again advanced beyond Altkirch.

A great part of the theater of operations in southern Alsace is illuminated at night by forest fires along the Swiss frontier caused by shells falling across the border.

Along the entrenched line where the armies have been face to face for six weeks nothing beyond a desultory bombardment occurred today; but further north, on the western wing where the German effort to break the allies' lines still continues.

The shots cause no actual pain to the wounded; it is a report from French surgeons. It is also a safe bet they cause no actual joy.

There is a bright side to everything. Singing and laughing have been heard in many European cities.

Superb Wilton Rugs—Accurate Reproductions of Noted Antiques

The at one time seemingly lost art of beautiful color blending has been recovered by modern manufacturers so that the deep, rich tones and intricate patterns of the hand-made antique Oriental Rugs are so accurately reproduced as to satisfy the great art connoisseurs. The rich designs that were extant in the time of Louis XV. are also in vogue now and some of them are such perfect works of art as to be hardly distinguishable from the real eighteenth century products. These magnificent Wiltons are displayed at Ramsey's in a grand assortment, including 15 sizes. The variety of sizes makes it possible to fit any shaped room. They are rugs of rare beauty and of wonderful wearing quality. Many of the designs have historical significance, adding interest to their other splendid features.

What the Theater Press Agents Say

THE VERSATILES

AT EMPIRE THEATRE.
The London "Versatiles," that clever company of old country comedians and comedienne, will be the attraction at the Empire theater for three nights and a Wednesday matinee, commencing tonight. The opening bill will be the merry millie-minute musical melange, "Scottie in Japan," which was written and produced by the noted English author-manager, P. Stuart-White. The scenes of the second, offering a cleverly constructed musical gem, are laid on board a tourist car on the Canadian Express, No. 23 Limited. "Scottie in Japan" will be given Monday and Wednesday evening. The bill for Tuesday night and Wednesday matinee, is entitled "The Criminal Express." The company carries the full scenic equipment for each of the pieces and the costuming is a special feature.

MONDAY THEATERS

LOTS OF COMEDY
IN PANTAGES BILL
Pantages theater this week there is being presented a comedy play which should be of more than usual interest to Edmontonians. It is entitled "A Strenuous Duty" and is offered by Violet Nellis and Jack Phipps and company. Every line of this playlet contains a laugh and the comedy is of the rollicking kind. But underneath the surface one may read the different viewpoints of life as seen through the eyes of westerners. It is a story about a young, wild, untamed girl from the west marrying a college-bred, society boy of the east. The parents of the boy cannot reconcile themselves to the open, frank ways of his wife as she is continually mixing up in the intrigue and plotting of society. Thus there is some good comedy with the result that the girl finally wins over the haughty parents.

Lottie Mayer and her Grecian diving girls also come back to perform some fancy and graceful diving and swimming feats.
Davis and Walker will be seen in a bill, entitled, "A Lesson in Dancing," which will give the young lady patron a chance to learn some new dancing steps, while De Witt Young and sister will open the bill with a clever juggling act.

"THE IDLERS" AN AMBITIOUS PRODUCTION

One of the really ambitious offerings of the Players at the Lyceum theater this season is "The Idlers" which will be presented all this week starting with a bargain performance Monday night and including the regular Wednesday and Saturday matinee. The play is in four acts with comedy and pathos intermingled in such a manner that the offering cannot help but be approved by the large Lyceum clientele.
The principal roles will be in the capable hands of Edward Hearn, Donald Grey, Wallis Howe and Grace Johnson, all of whom can be depended upon to do consistent work. Minor Reed has provided realistic settings that are well in keeping with the spirit of the play.

PICTURES OF NAPOLEON AT THE BIJOU THEATER

The Bijou photoplay theater furnishes to the lovers of the movies an entire triumph of the photo-play art. The life, romances, and the greatest battles of the world's greatest warrior, Napoleon, are visualized in a set of motion pictures that will be shown at the headliners on the bill at this theater for Monday and Tuesday, as also for the Wednesday and Thursday evening. The reels exhibited the latter two days will be a sequel to the three reels of the show Monday and Tuesday each act complete in itself.
"A Born Warrior," the title of the first episode, is a review of the emperor's early life and romances. The life story of Napoleon is a story filled with action and genuine sensation. The picture is, therefore, replete with many stirring war scenes and from the earliest days of the Napoleonic war to the fateful Waterloo. At this time this picture of motion picture should have a wide appeal to the general public.
The love story of Josephine and

GRACE JOHNSON

Leading woman with the Lyceum Players at the Lyceum Theater.

"THE MAN IN THE STREET" AT THE EMPRESS

"The Man in the Street" a beautiful three-reel feature moving picture production, is the headline on the bill being offered at the Empress theater. It is an adaptation from the widely read and popular book of the same name by Mary Mallon Taylor. The story makes a most effective subject for motion picture work, and, together with the superb presentation given it by a pick of the best cast of experienced and talented picture stars, the film is ranked as one of the leading and most artistic photoplays.

To those who admire a finely constructed plot and the higher class of motion picture production, "The Man in the Street" will be welcome. It is the type of film that is raising higher and higher the plane of the movie as a means of entertainment and bringing to the picture houses the most scrutinizing and the most discriminating of the people. Marc MacDonnell, the very capable and able moving picture player is surrounded in this film by an equally capable number of associates, such as Gertrude McCoy, which will give an idea of the care taken by the producers to secure only the finest

Interpretation of this greatly successful novel.

Together with this film will be shown a war motion picture weekly. The events pictured on this review of novel in the war are significant and valuable. Soldiers lying behind improvised shelters in the roadway waiting for the German tanks to pass. The defense of Louvain, the troops of Belgium advancing from Brussels, refugees with their possessions tied up in handkerchiefs. The scene from Tirlemont are among the interesting items pictured. The program will be exhibited Monday and Tuesday only.

STATED GERMANS ARE MOVING FROM OSTEND DISTRICT

Correspondent Informed That Enemy Does Not Regard Situation Satisfactory
ALLIES MAKING GOOD PROGRESS IN BELGIUM
Officer Thinks That Before Week is Out Touts Will Be on Run.
(By George Renwick)
Northwest France, Oct. 18.—A report is current in this district this morning that the Germans are retiring from Ostend and its neighborhood. It is added that the town was not occupied in great force. It is impossible here, at the time at which this message must be dispatched, to obtain any measure of the report, which, however, comes from what I think is a fairly reliable source.
I am informed in another quarter that the Germans now regard their position in Belgium as not quite a satisfactory one. It is struggling, open to attack and in great danger, owing to the continued progress of the allies farther south. Good progress, it is added, is being made by the allies in Belgium and in military circles high hopes are entertained that a noticeable advance will be risked in the course of this week. It is confidently anticipated that the advance will be achieved by a victory which will also have an effect on the position of the contending armies elsewhere.
"The Germans in Belgium," said a high official to me this morning, "simply cannot hold on and win. Before the week is out we ought to have them on the run."

FIRST DEATH MEMBER CANADIAN CONTINGENT OCCURS IN OLD LAND

London, Oct. 18.—The first death in the Canadian expeditionary force occurred late Saturday night under mysterious circumstances. The body of a soldier from the West Down South camp was found in the road early Sunday morning and inquired so far failed to identify him. The body was taken to an outlying village, 12 miles from Salisbury and the county coroner was called to the scene. The coroner will hold an inquest today.

HOTEL IN VEGREVILLE THREATENED BY FIRE; WAS BURNED IN 1907

(Special to the Capital)
Vegreville, Oct. 18.—Owing to the good work of the Vegreville fire brigade a fire, which for a time threatened to burn to the ground the Alberta hotel here, was extinguished Saturday night with comparatively little damage. The fire is thought to have started in the basement of the building and to have quickly spread to the very top, by means of the space between the partitions. By hard work and by brand in, through the caissons, however, the blaze was soon put out.
In the latter part of 1907 the hotel had a fire and was completely gutted, being replaced by a new building the next year. Had the town been in the same position now as then it is probable that the fire which got a start Friday night would have had similar results.

SAID GERMAN MINE CAPTURED BY H. M. S. UNDAUNTED

London, Oct. 18, (12:20 p.m.)—The Central News sent out a despatch from Harwich in which the correspondent says he has learned upon good authority that the British cruiser Undaunted, accompanied by two torpedo boat destroyers, has captured a German mine layer.

STEAMER "CZAR" WILL MAKE ANOTHER SAILING TO ARCHANGELSK SOON

According to the local ticket offices of the Canadian Northern, the Russian-American line steamer, "Czar," which made her last trip from New York to Archangel in 13 days, was just sailed for New York on the return trip, which means that she will again sail for Archangel this season. Many Russians in western Canada will be expected to avail themselves of this sailing, which will probably be in two or three weeks from now.

MOTHER IN CUSTODY BECAUSE SHE LOVES HER CHILDREN MUCH

Unable to bear the sorrow of separation from her children, Mrs. Freda Jones, of Fort Saskatchewan, went to the children's home on Sunday evening to see them. She had been placed in the home by her father as for some time their mother had been an invalid, recently undergoing an operation and since being the victim of nervousness and hysteria. The pain of parting again from her little ones was too much for her and she broke down and started to shriek and cry. In vain those at the home attempted to quiet her and she caused such a disturbance that they were forced to ask aid from the police. While in the police court, Mrs. Jones wept copiously and declared that at times of deep emotion such as the parting with her children, she had no control in her own mind. Magistrate Massie was sympathetic and ordered her released from custody.
